Subject: Reference Registration Number PMOPG/D/2018/0442070 - reg.

I am directed to refer to your grievance Registration Number PMOPG/D/2018/0442070 dated 03rd December, 2018 posted on Centralized Public Grievance Redress and Monitoring System (CPGRAMS) - addressed to Hon'ble Prime Minister / Ministry of Health and Family Welfare - on the subject cited above.

In this regard, it is informed that 'Public Health being a State subject, under National Health Mission (NHM), technical and financial support is provided to States /UTs as per the proposals received from them, including support for carrying out health service delivery through NGOs. As per NGO guidelines, the role of the GOI/MOHFW is one of policy guidance only. The financing of NGO activities under the NHM is through the State Programme Implementation Plan (PIPs) only. There is no provision under National Health

Mission (NHM) where the Government of India can provide fund to the NGOs directly.

However, the suggestion made by you for the improvement of health facilities by partnering with NGOs is being forwarded to all the States for necessary examination at their end.

Yours faithfully,
